Ten years after its humble beginning at Central High School, Science High School celebrates its tenth anniversary and takes its rightful place as a viable and recognized institution of learning, an institution that has gained recognition for its excellence as well as for its uniqueness. Few remember, however, the pains that accompanied its birth. Yet, a struggle it was, and continues to be, though not without its lighter moments. Who can forget, for example, the time Mr. Korzennik's class caught fire, the time when a student pulled the shower handle in Mrs. Hand's office flooding the first floor, or the time when Mr. Petitti got a lesson in sex education when he turned around to face the board at a faculty meeting and discovered that sex education notes had been left on the board.

It was our sense of humor — teachers' as well as students' — that pulled us through.

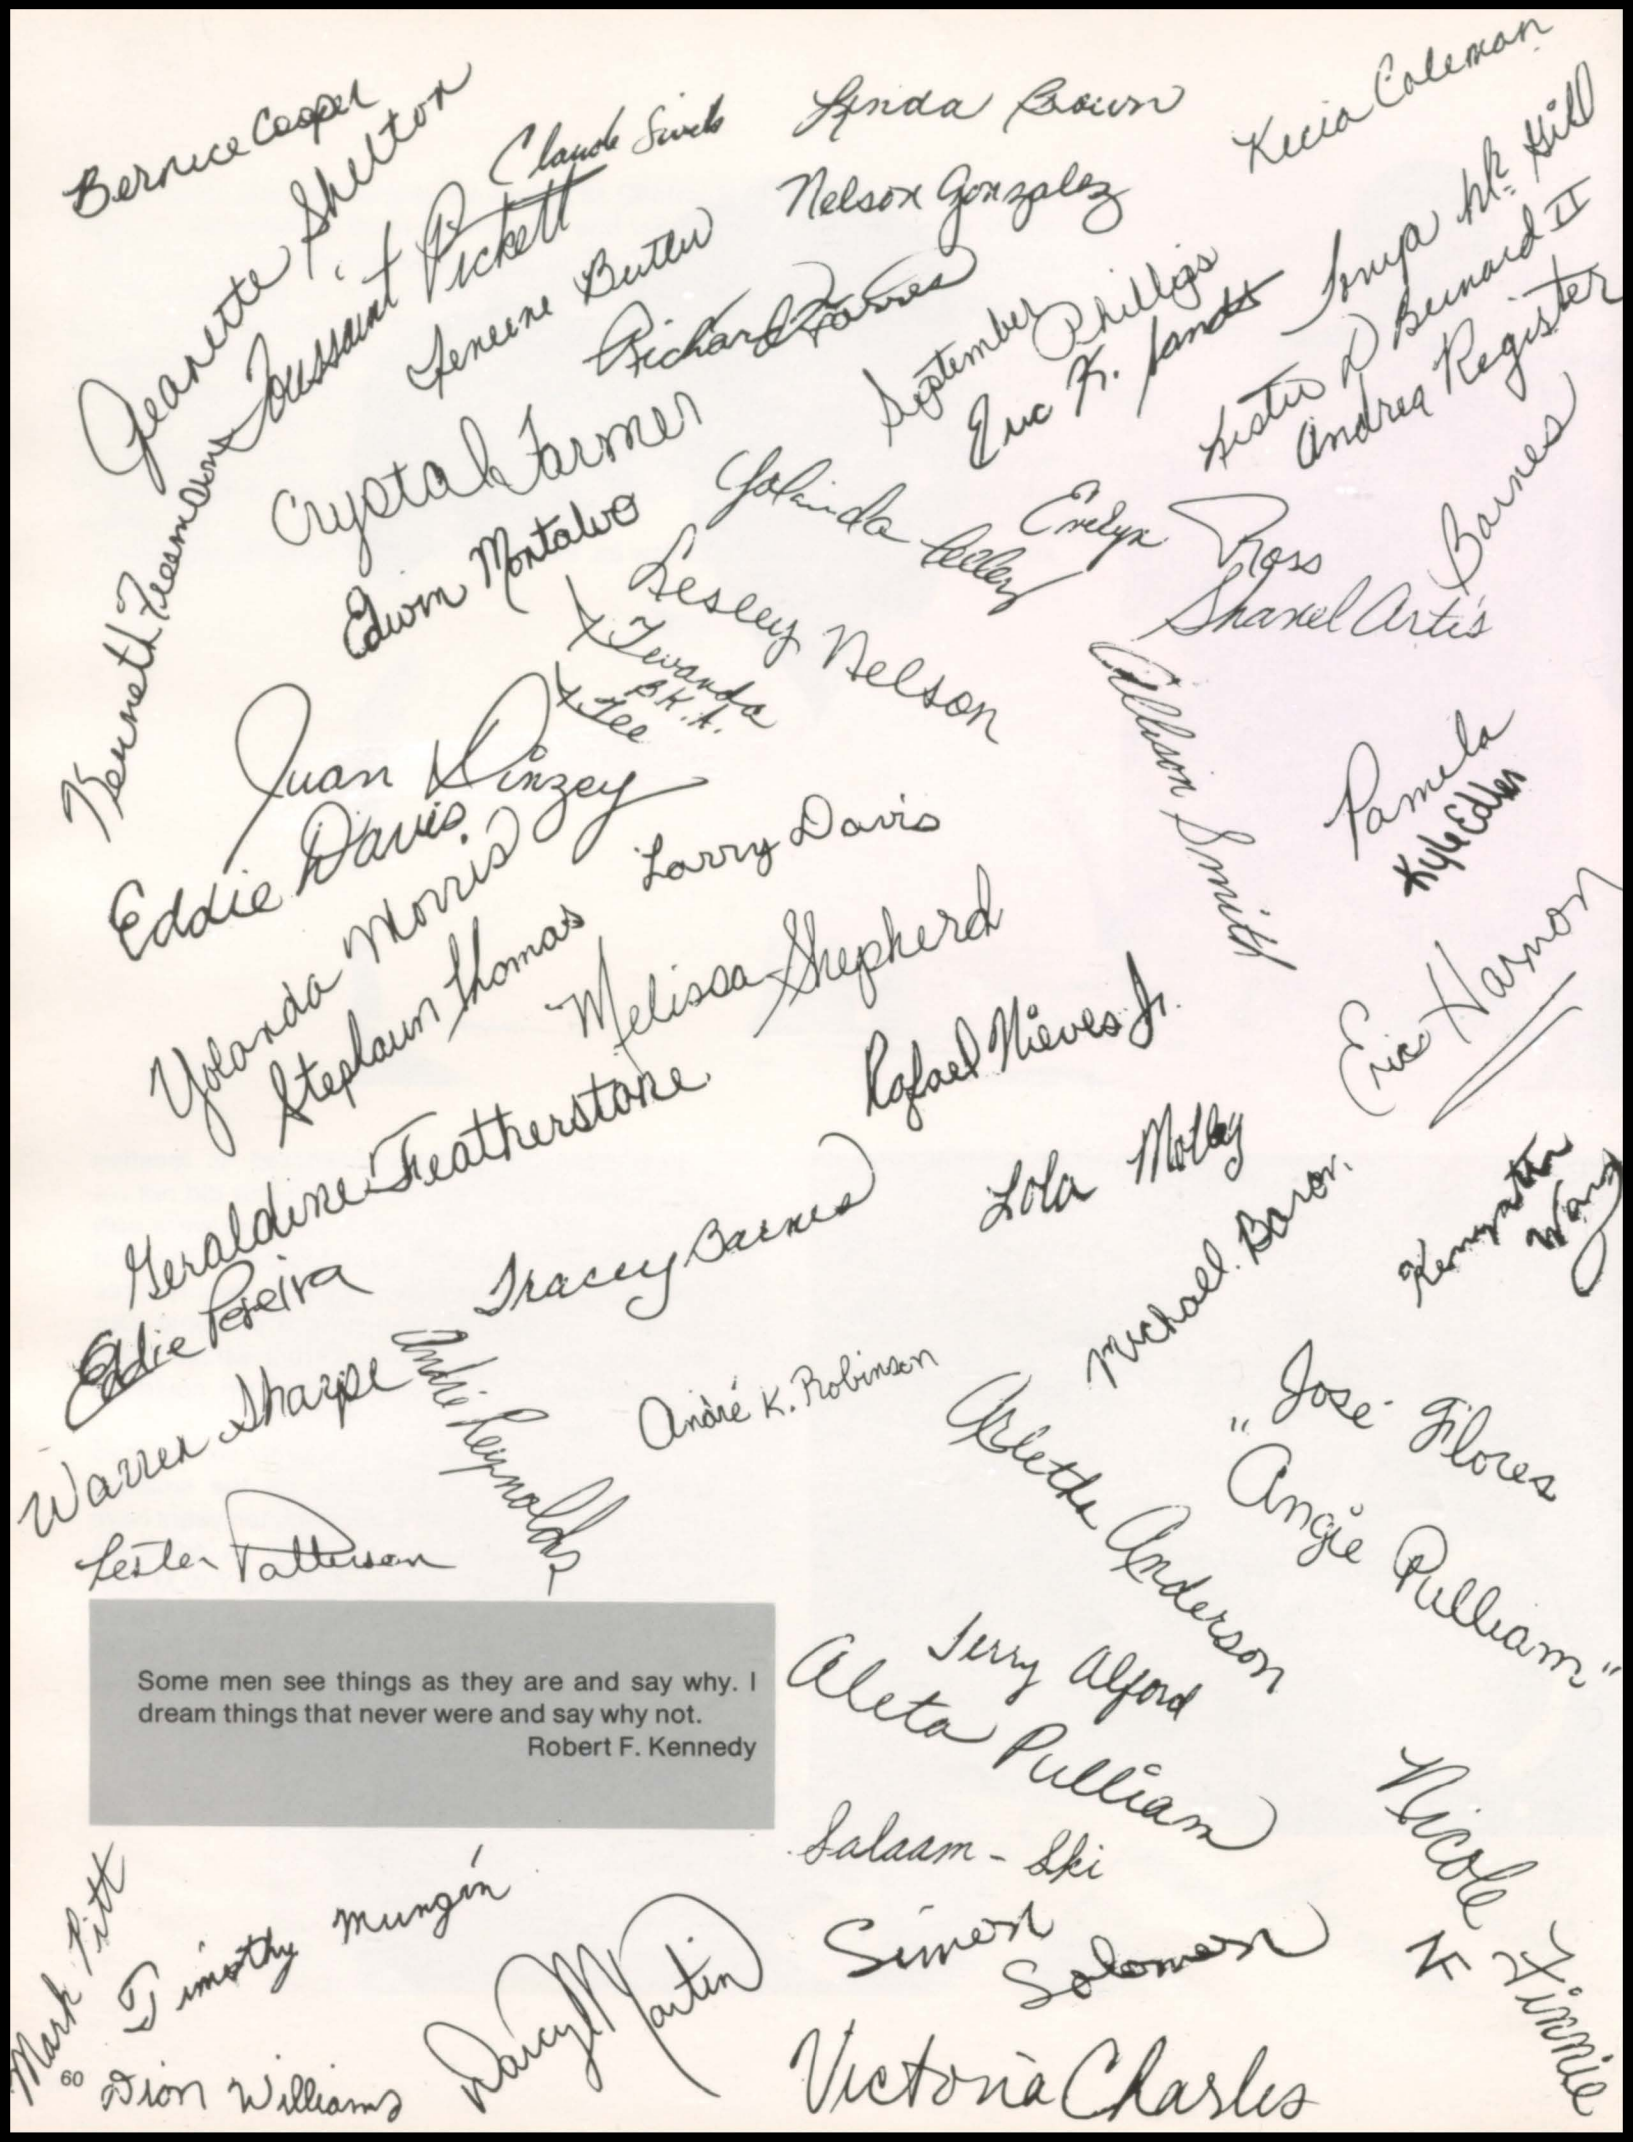

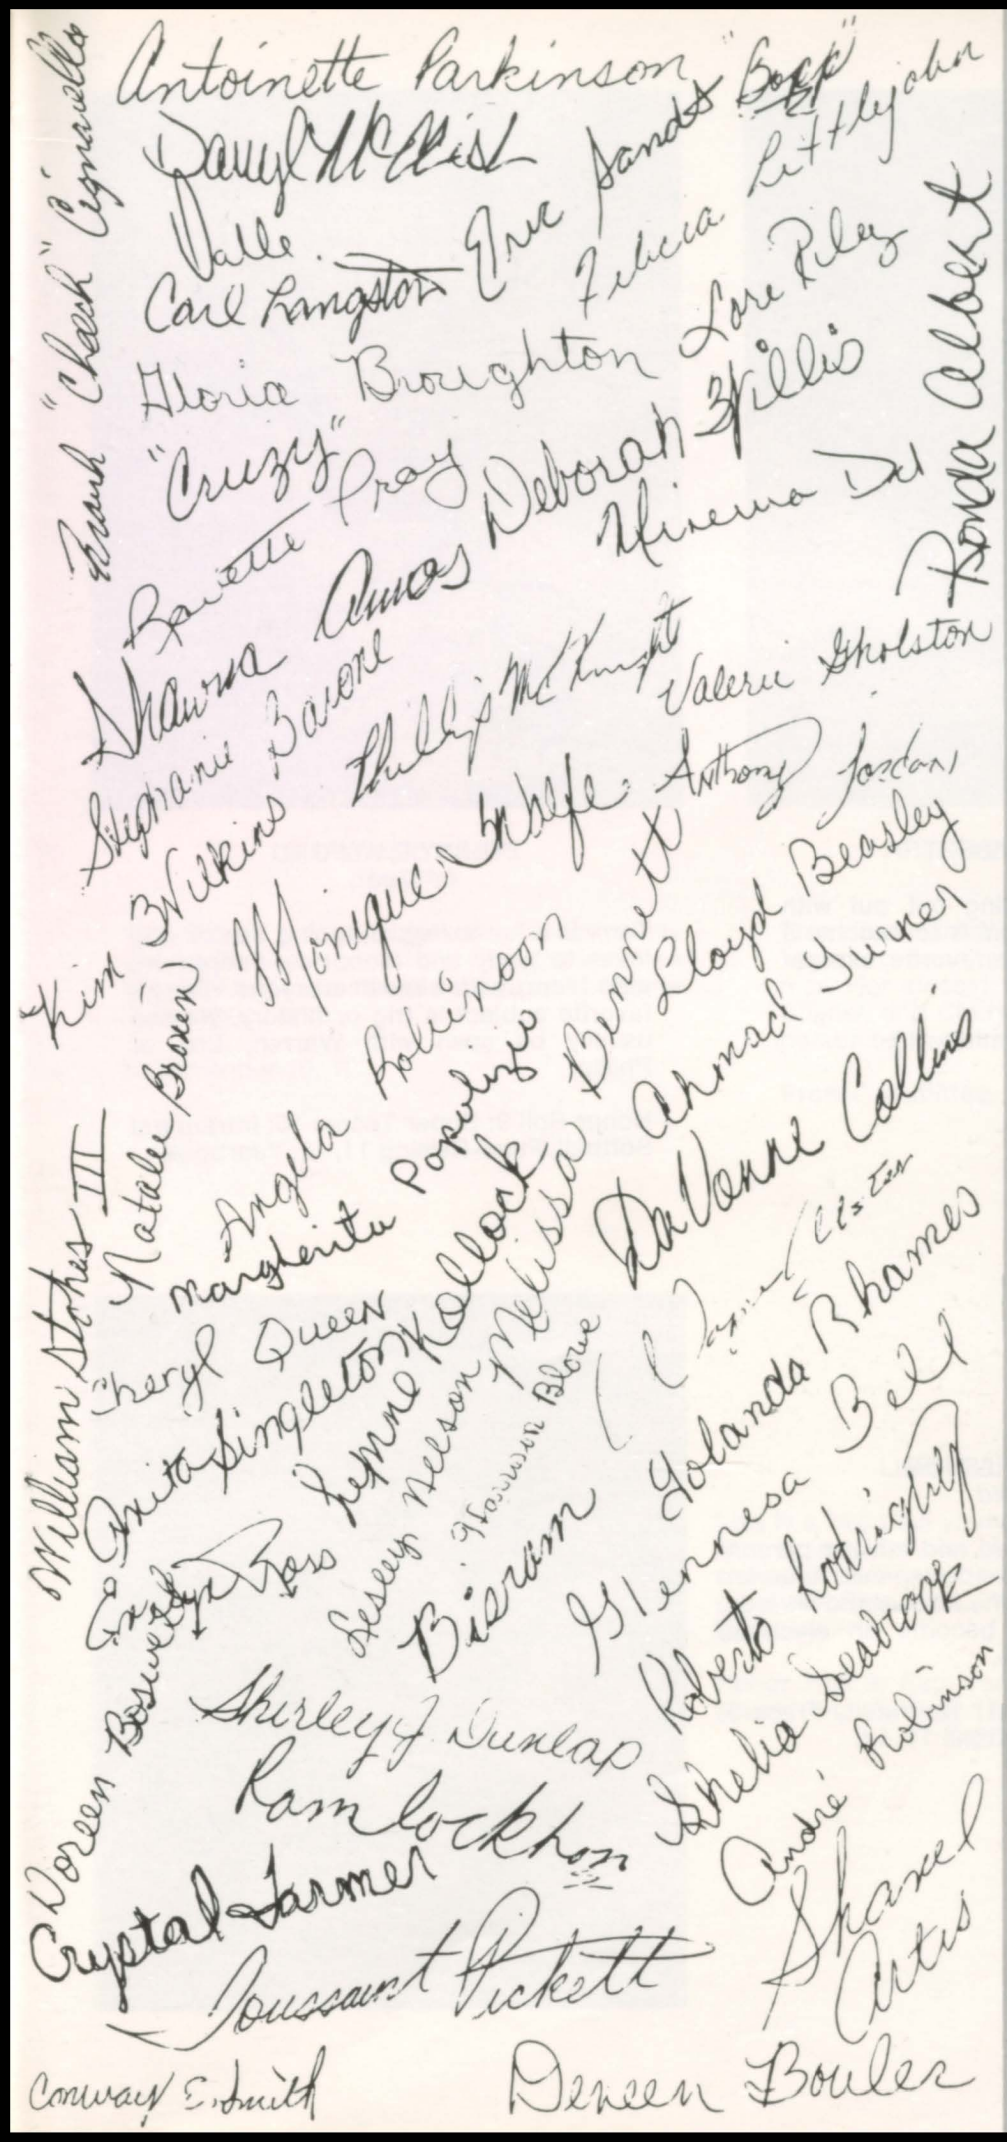

In the beginning, Science shared its location with other tenants. We were small and did not require much room. The first year, there were only sixty-five students and eight teachers. The first graduating class consisted of only twenty-three students; we did not even have a principal. Our first director was Mr. Morris Lerner whose vision and leadership convinced us that we could be what we wanted to be.

Today, Science has approximately six-hundred terrific students, which makes us the smallest school in the system. And, although ten years have passed, and we still do not have an adequate cafeteria, and we still have to go to the Y.W.M.C.A. for gym, and the auditorium still will not hold more than a third of the student body, SCIENCE HIGH SCHOOL STUDENTS STILL LOVE SCIENCE HIGH SCHOOL!

Some men see things as they are and say why. I dream things that never were and say why not.

A scintillating, radiant smile characterizes this Senior. Wendy is a fun-loving Pisces who doesn't take life too seriously. She likes Pizza and Michael Jackson records and can be counted upon to be a helpful and true friend. She detests "phoniness." Among her close friends are Dawn, Monique, Pam, DaVonne and Aquil.

SENIORS DEFEAT JUNIORS 43-25

High Scorers

Seniors:
Greg Clark 14
Andre Robinson 8
Juniors:
Dwayne Williams 12
Coach: Tyrus Montgomery

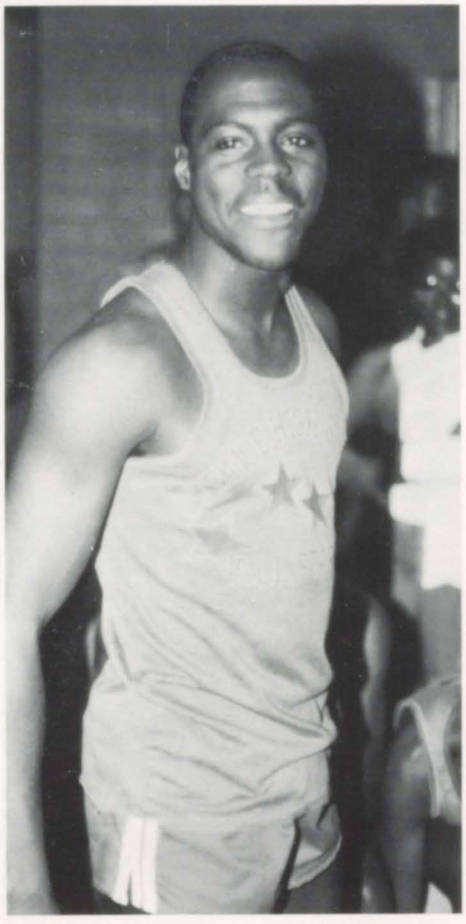

Once again, the Seniors proved invincible. Maintaining a comfortable lead throughout the game, the Seniors dominated the Juniors.

The Juniors, nevertheless, played hard and were worthy opponents. Experience, however, triumphed over enthusiasm, and the Seniors won by an eighteen-point margin.

Congratulations to both teams.

SENIORS PREVAIL

In a close contest between the Seniors and the Juniors, Senior Cheryl Queen made all the difference by leading the Seniors to a two-to-one victory over the Juniors in the annual December volleyball competition.

No act of kindness, no matter how small, is ever wasted.

Although Mrs. Vick is no longer a part of the Science High School staff, we shall always be grateful to her for her imaginative contributions to the Senior Class, for her professional attitude and, very importantly, for helping us realize, what sometimes seemed, "The Impossible dream."

The Senior Class, therefore, would like to take this opportunity to wish her the best of luck and the greatest success in her new assignment.

With love,
The Class of '84

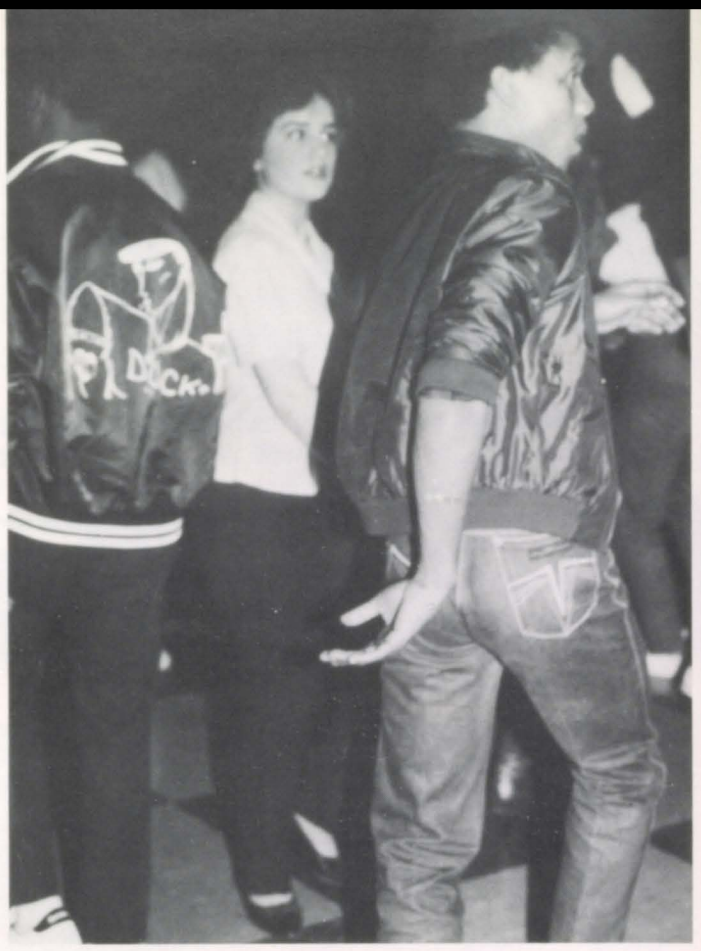

Thanks to all of the members of the yearbook staff for their much-appreciated contributions to the 1984 edition of the Synergist, and thanks particularly to Juan Dinzey, who designed this year's cover, and Yolanda Graham for her fine job of editing. I would also like to thank Lorstan-Thomas Studios and Mr. Murray Howard of Taylor Publishing Co. for their professional assistance.
